# APNIC and other RIRs

# APNIC region

We serve 56 economies and 6,300+ Members (as of Sept 2017)

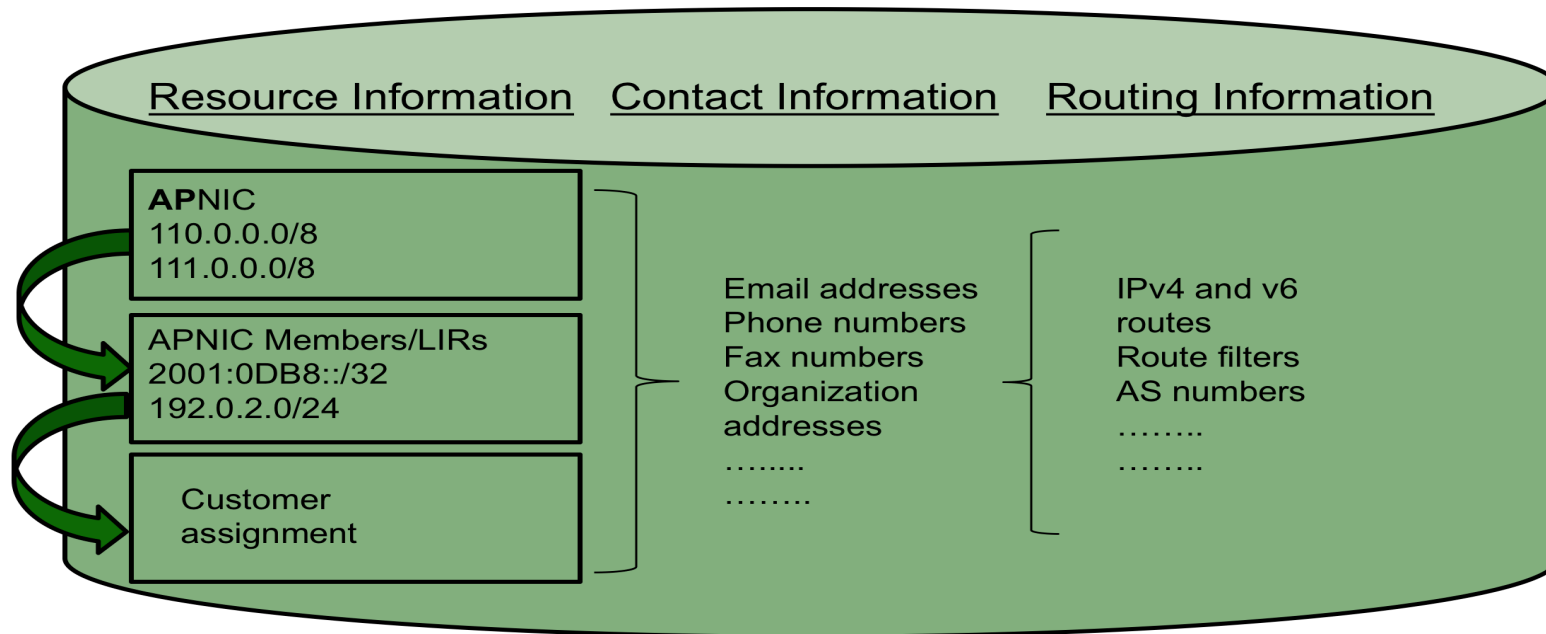

# Where do IP addresses come from?

# APNIC Whois Database

# Community input on registry contact data

- POC (Point of Contact) validation system
- Distinction between APNIC data and customer assignments by tagging
- Attestation of validated data, similar to a reputation system
- Other RIRs have faced similar issues
- Community engaged with LEAs

# Objective and challenges

- Objective
  - Improve user experience
    - When querying registered contact data
    - Performing updates on contact data
- Challenges
  - Confusion where to go to update different contact types
  - Difficulty to navigate update processes within MyAPNIC
  - No reminder to keep contact records up-to-date

# Future registry improvements

- Annual contact review reminder
- Single point where contact details can be updated
- Update progress indicator

The screenshot shows the 'MyAPNIC' Member Details page. It includes sections for Account details, Organization details, and Billing details. Two vertical indicator boxes are overlaid on the right side of the page. The top box, containing three grey squares, is labeled 'Indicators for records appearing current'. The bottom box, containing three orange squares, is labeled 'Indicators for records requiring action confirmation/update'.

# Who will benefit

# Registry accuracy contact check

- Motivation
  - Does not require in-depth whois knowledge
  - Update account and whois contacts at the same time
  - Remove complexity and inaccurate contact data
- Implementation in stages
  - To ensure smooth transition
  - Annual contact review reminder and single point where contact details can be updated within MyAPNIC
    - Before APNIC 46

# What next?

- Check your company information
- Update info via MyAPNIC if needed
- Get involved in the community and discussions
